

GAMM AG Data Workshop

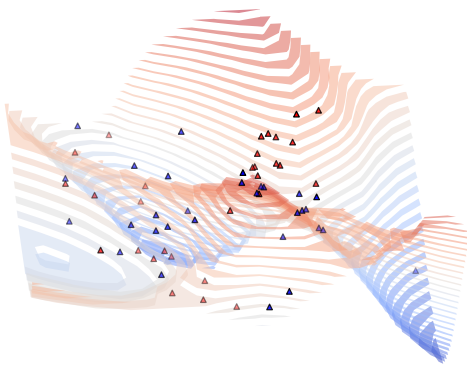

CHALLENGES IN DATA-DRIVEN MODELLING
May 11/12, Eulenhof, 70569 Stuttgart

TOPICS

The GAMM AG Data coordinates the activities of the members of the International Association of Applied Mathematics and Mechanics (GAMM) in the field of data-based modeling, simulation and analysis in the context of microstructured materials.

OBJECTIVES

- Discussing state of the art techniques and recent trends in computational and experimental research
- Planning AG Data activities
- Exploring possible collaborations

REGISTRATION

https://isd.uni-stuttgart.de/gamm_ag_data_registration

The registration process includes submitting an abstract of 1 page. The template is supplied on the web page.

Registration fee: **120 €**

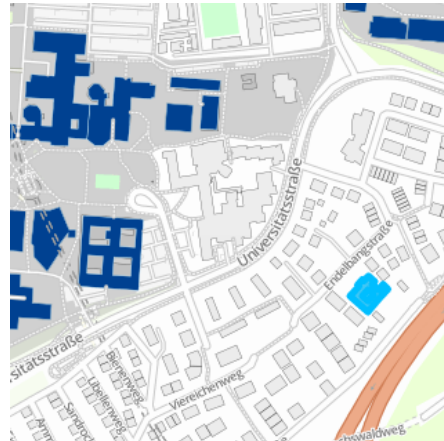

The fee covers coffee breaks, lunch, a conference dinner, and a guided tour of the Stuttgart 21 construction site for the first 20 participants.

CONTRIBUTIONS

25 minutes for each presentation.

VENUE

The Workshop will take place at the Internationales Begegnungszentrum ("Eulenhof"), Robert-Leicht-Str. 161, in 70563 Stuttgart.

DEADLINES

Abstract submission: Apr 10, 2020
Abstract acceptance: Apr 17, 2020
Registration deadline: Apr 17, 2020

CHAIRS

Prof. Tim Ricken, University of Stuttgart
Institute of Mechanics, Structural Analysis, and Dynamics

Prof. Felix Fritzen, University of Stuttgart
Stuttgart Center for Simulation Science
Institute of Applied Mechanics
